Carol:

Here is the RAWP.

Thanks

Jason

Thank you Jason. I will find out from my management. In the meantime, pls email me a copy of the workplan when you have the chance. Also, is Henry Wilkie still working on this site?

Thanks,
Carol

Carol:

The Navy recently submitted a Remedial Action Work Plan for our review involving the excavation and off-site disposal of approximately 45,000 yd3 of PCB contaminated soil. Some of the soil contains PCBs at concentrations greater than 50 ppm. With PCBs present in soil at concentrations greater than 50 ppm, is this a Work Plan that the EPA should review?

Thanks and call if you want to discuss.

Jason

Jason Pelton
